

Gerflor

Floors to match your imagination

Regular maintenance

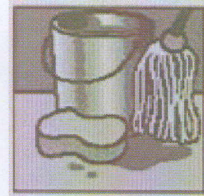

Clean with luke warm water containing a mild detergent (do not use linseed oil-based detergents).

Annual maintenance

Once or twice a year if your flooring is subject to heavy use:

thoroughly clean the floor using a nylon brush and water containing detergent
polish the floor with a self-shine emulsion for a bright finish.

Remove stains

Deal with any stains immediately using the correct method according to the type of stain:

Rust :

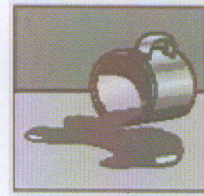

clean with an antirust liquid or oxalic acid.

Ink, tomato juice, mustard, blood, urine :

use diluted bleach, 30 volume peroxide with a few drops of ammonia or alcohol vinegar. Soak for a few minutes without rubbing and then rinse.

Tar, grease, paint, felt tip pen, petrol, alcohol, rubber marks :

rub with pure detergent and then rinse.

Do not use :

Solvent wax, vitrified varnish, black soap, linseed oil-based products, acetone, trichlorethylene

Abrasive powders or pads

Rubber caps on your chairs or furniture stain your flooring. Replace them with plastic ones.
